

CLOUD ENERGY MONITORING PLATFORM

Elkor Cloud is an internet based platform for the display, logging and aggregation of energy metering data from Elkor's energy monitors including WattsOn,-Mark II, and ECM

CLOUD FEATURES:

- ◆ Responsive design works on any device
- ◆ Real Time Data
- ◆ Trending / Historical Power and Energy
- ◆ Interactive charts
- ◆ Phase balance
- ◆ Site / Meter grouping
- ◆ Custom intervals
- ◆ Export to CSV & Excel
- ◆ Up to 13 months of data retention

The Elkor Cloud platform allows for simple monitoring of power, energy and system performance data from web connected metering devices. The platform aggregates data from WattsOn-Mark II and ECM metering devices in conjunction with Elkor's Hive aggregation gateway.

The responsive design works with any browser on multiple device types.

Free access for a limited time.
